The Memorial Day Committee held a series of six meetings in preparing the program for the 1949 observance of this Day of Memory in our town.

Because Rev. L. Raymond Liles, of Salem, had been so well received last year, the committee asked him to return as our speaker. He was pleased to accept, and we were gratified to see that the audience was well pleased with him and with his fine message.

We were able to hire a small group of musicians to serve as a band, and they gave a short concert as well as played for the program itself.

It is hoped that another year we may branch out a little along this line.

The Selectmen were invited to attend and bring short messages to the town's people.

The Committee placed American flags on the Soldiers' Graves in the cemeteries as usual. While doing this, a special need became apparent. This need took form in a voluntary project of the committee, a report of which is found under separate heading.

We, as the Memorial Day Committee, hope that the report of the Veterans' Graves project will be seriously considered by every family; and that they will support the requests and recommendations of the committee.

Memorial Day services were well attended this year and this was most pleasing. Well over one hundred were estimated as present. A group of about fifteen veterans were in complete or partial uniform, and we trust this group will grow in numbers each succeeding year. This is the Veteran's Day.

We thank those who came. Make yourselves "members" of the committee by asking others to come in 1950.

Members of the Committee: Robert G. Armstrong, Florence B. Garland, Theophil Glance, Edward N. Herbert and William W. Sykes.

Signed: FLORENCE B. GARLAND, *Secretary*.

## VETERANS' GRAVES PROJECT

While placing American Flags on veterans' graves for Memorial Day, two things became evident to the committee: 1. Some sort of official list should be compiled; 2. Some way of anchoring the standards devised.

The members of the Memorial Day Committee agreed to work through the summer, as a voluntary service, to make a list of veterans' graves in Windham; to verify this list as far as they were able; to submit the list to the townspeople for corrections; to procure maps, if possible; and to set up a plan for maintaining the list and properly marking the maps in the future.

Beginning June 22, all or part of the committee met every Wednesday night at one of the cemeteries and worked till dark. This outside work was completed Labor Day week-end. As we worked we found the so-called "Revolutionary Cemetery" practically unmolested. The Cemetery on the Hill had a few misplaced standards and some unmarked military

graves. The Plains Cemetery was flagrantly violated: flag standards pulled up and tossed aside; flag standards taken from military graves and placed on civilian graves; several standards bunched on one grave; and one was found with the flag standing on its head in the holder. Children played hide and seek among the monuments; and tonic bottles had been thrown and smashed against grave stone targets. This committee recommends that some action be taken by the proper authorities to correct this situation.

We were assisted in this work by Maurice E. Tarbell, who served several years on Memorial Day Committees and had a better knowledge of the yards than the newer members.

We received permission from the Board of Selectmen to use the balance of the money from the Memorial Day appropriation, plus an overdraft "within reason" for the purchase of desired maps. These maps of the Plains and Hill cemeteries are in the hands of the committee. Robert G. Armstrong plotted a map, or plan, of the Revolutionary cemetery which will serve the committee quite satisfactorily. The maps will not be marked until corrections are received.

This list is not complete and is published for corrections and additional information. These names are of veterans of all wars who are buried in our three cemeteries. If any veterans are buried in "family grave yards" on old homesteads, the information is solicited. Corrections or information will be appreciated. Please send them, *in writing*, to any member of the committee. The list will be kept open until June 15, 1950.

We thank the Selectmen for the privilege of publishing this list in the town report. We feel this means of reaching Windham families will be more satisfactory than the newspapers.

# REPORT OF FOREST FIRE WARDEN

---

## FOREST FIRES — OUR MOST SHAMEFUL WASTE

---

Everyone apparently fears fire, but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small, but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the co-operation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU co-operate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Windham School Board:

I herewith submit my eighth annual report as superintendent of schools of Windham.

### STATISTICAL REPORTS

---

#### Enrollment

The total enrollment for grades one through eight for the period ending January 31, 1950 was 126 as compared to 122 for the same period last year and 113 two years ago.

The membership by school and grade for January 31, 1950 follows:

<i>School</i>	<i>Grades</i>								<i>Total</i>
	1	2	3	4	5	6	7	8	
Center.....	13	19	16	18	14	13			93
Searles.....							15	12	27
	—	—	—	—	—	—	—	—	
Totals.....	13	19	16	18	14	13	15	12	120

The number of Windham pupils who were in attendance at high school on January 31, 1950 may be seen from the following:

<i>School</i>	<i>Grades</i>				<i>Total</i>
	9	10	11	12	
Pinkerton.....	1	5	2	1	9
Nashua.....		3	1	1	5
Woodbury.....	1	1	4	3	9
Methuen.....		1		1	2
Sanborn.....		1			1
Lowell.....	1	1	2	1	5
	—	—	—	—	
Totals.....	3	12	9	7	31

## Statistics for the School Year Ending June 30, 1949

Total registration.....	129
Half day schools were in session.....	340
Average membership.....	115.235
Average attendance.....	105.529
Per cent of attendance.....	91.016

On Friday afternoon, June 17, 1949 graduation exercises were held in the Searles Chapel for four pupils who had completed the prescribed elementary program of studies. Appropriate exercises preceded the awarding of certificates to the following:

Shirley Butterfield	David Rice
Robert Chadwick	Anna Tokenal

The following were neither absent nor tardy during the school year 1948-49:

Grade 4.....Darryl Butterfield

As indicated in last year's report the total enrollment approached 130. One factor that can not be forecast, alone prevented the enrollment from exceeding this figure. The moving from town of families with several children attending school cut our enrollment by a minimum of 10 pupils. Our anticipated increase was substantially correct in last year's report except for this change of residence. The interesting fact of our enrollment is the average size of the grades. If the present enrollment, grades 1-8 is considered, the average is 14, grades 1-6 the average is 15, grades 1-4 the average is 16. In other words the greater portion of our enrollment is in the lower grades. This will continue to be the trend. Previous indications were to the effect that the peak should be reached in 1956. The birth rate for 1949 has caused the forecast to be advanced to 1957. If the district follows the normal trend the peak enrollment is seven years away. The increase on a country-wide basis is predicted to be 35% of the present enrollment. If the district follows the national pattern, it would mean an increase of over 50 pupils. Careful thought of the future should therefore be part of the deliberations of any district meeting.

## Personnel

It seems strange to have a new teacher at Searles. Miss Emma Cashion, after many years of faithful, conscientious service to the young people of the community, retired. The hope of the entire school community is that she may enjoy many happy years of her retirement. Mrs. Maria Webber also resigned so that it became necessary to engage two new teachers. Although replacing both of these capable teachers seemed to be difficult the district was fortunate. Mrs. Helen Higgins and Mrs. Dorothy Stewart, trained teachers of some experience, were secured. Both returned to teaching after a few years absence. The district is exceedingly fortunate that because of geographic location to be able to secure teachers of experience, training and sympathetic understanding. To have every position filled with professional trained teachers is not the general rule in this period of teacher shortage.

## Instruction

The curriculum of the modern elementary school is expanding in an attempt to meet the needs of the children of our state and nation. The technological advances have made the world smaller and more complex. In an effort to prepare children to meet the problems that will face them at all levels the curriculum is constantly changing.

Text book companies working closely with curriculum experts are producing materials that are scientifically graded from the point of view of vocabulary, materials are selected based on a psychological analysis of children's interest at a given age level, and the format of the text is such that children's interest is excited by the beauty and subject content of the illustrations. The approach to the learning situation is keyed to meet the needs of the individual child. Supplementary materials recently produced are in the following areas, reading for independence, personality development, health and personal growth, science, and new approaches to global geography.

The first area mentioned, reading for independence, is definitely aimed at developing a greater mastery of the tool

subject of greatest import. The knowledges and understandings needful to present day living demand an ability to read critically and weigh the opinions expressed carefully. In order to do this well the need to develop the ability to read independently is almost self evident. In order to develop this ability wide spread reading at grade level is important. A very fine beginning has been made at primary level which followed up through the grades will eventually lead to the development of this ability.

This first area is important to the individual child so that he may profit more from other available material. The second and third areas are also based on modern educational philosophy, the development of the individual. The war has caused the increase of popular use of words like neuroses and psychosis. A realization that mental as well as physical health are of utmost importance has led to the evolution of text materials that help personality growth and development. The third area, health and physical growth, are easily recognized as being important to every individual. The aim of both these areas is to make available to children materials that will lead to the achievement of that old Latin adage—a sound mind in a healthy body.

Science and geography are both subject matter fields that are of increasing importance in our world today. It is almost self evident that a greater knowledge in both these areas is necessary if coming generations are to solve the world problems that are and will be in need of solution.

The teachers are all at present enrolled in an extension course on "Art in the Elementary School." The result of this course will, it is hoped, bring art as a means of self expression to the class room.

### **Budget**

The proposed budget exclusive of special articles shows a decrease of \$1,719.02. With an increase of estimated income of \$1,973.78 the tax levy is decreased \$3,692.80.

### **Special Articles**

The special articles involve an expenditure of \$775. In order to make the recommendations of the State Fire Mar-

shal's Office effective \$200 is necessary for panic bolts and a Klaxon Alarm system. The special articles for grading and fuel for Searles Chapel are self explanatory. If the district should vote all of these special articles the levy would still be \$2,917.80 less than last year.

The task of working in the Windham school community is made lighter by the many cooperative acts of the parents, pupils, and teachers. The school board work conscientiously to render the greatest possible educational service. I appreciate the opportunity of working with and for children in such an environment.

Respectfully submitted,

EVERTON H. PARKINSON

## CHILD HEALTH CONFERENCES

---

During the year 1949 three Child Health Conferences were held at the Town Hall in Windham. These conferences were sponsored by the Windites, cooperating with the State Dept. of Health. Local chairman, Mrs. Ethel B. Low.

Fifty-five children were examined by physicians. Nine were vaccinated. Thirty seven were given immunizations.

## THE WINDHAM FIREMEN'S ASSOCIATION

---

It seems fitting at the culmination of nearly four years of effort on the part of the citizens and summer residents of the town, and the members of this volunteer organization, to report on the status of the new fire house and its recently acquired equipment. A sturdy one and one-half story field stone building now houses the two fire trucks and other fire fighting equipment.

The expenses involved in carrying out this project were met with the proceeds of carnivals and dances run by members of the association and by generous contributions from townspeople and others. Of the funds expended from the treasury of the association, \$2900 went into building materials and equipment for the fire house, \$1275 went toward the cost of the new fire truck, and over \$500 has been donated to charities and various organizations.

The labor involved in constructing the new fire house was accomplished by members of the association and others working at odd hours on their own time.

There are at present nearly thirty members of the Windham Firemen's Association. This is a volunteer organization and none of the members receives any pay.

Future plans which will improve the efficiency of this organization in controlling fires include the following: A pump and additional hose for the new fire truck; an efficient alarm system; zoning of the town into fire districts to minimize confusion regarding duplication of names; and a program to improve roads leading to inaccessible locations.

It is well to again thank the townspeople, summer residents, local organizations and clubs for their contributions, and also the support given to carnivals and dances sponsored by the association. Much credit should also go to the members of the department themselves for the time and effort they have freely given that this organization, so necessary to the welfare of the town, might exist.

This page was printed at no expense to the town. It was written by a taxpayer in no way connected with Windham Firemen's Association and was inserted in this report with the approval of the selectmen.
